

*Traditional by Nature
Precision by Design*

**Black Widow
Custom Bows**

2020

Greetings,

We made our 11th Annual Bear Hunt at Squapan Mountain Outfitters last fall in Chapman, Maine. Tony and Lynn Boucher hosted another great camp in the North Maine woods. Mr. Nick Sernick got the big bear that week. He decided on a PCH IV Greenleaf bow. His buddy Brian got the big bear last year (it's your turn next Mike)!

Make plans now to join us on the Black Widow Bear Hunt at Squapan Mountain Outfitters in the fall of 2020. Lasting friendships will be made as well as memories that will last a lifetime. The biggest bear of the week taken with a traditional bow will again receive a new Black Widow Bow.

For more information look up Squapan Mountain Outfitters on their website squapan.homestead.com or you can email Tony or his wife Lynn at tljj@live.com or give them a call at (207) 764-7844 (you may need to leave a message and they will get back with you). You can also call and we can get you details of the hunt also, but you will need to book with Tony and Lynn.

We wish you all the best for 2020 and would love to help you begin or continue your traditional journey.

From the entire gang at Black Widow, have a great and successful season.

Shoot Straight,

Toby Essick, John Clayman, and Roger Fulton

*"May the good LORD be your Outfitter and Guide;
May HE cause you to always shoot straight;
And may the trophies you pursue be worthy of the Book."*

2019 Big Bear Winner Nick Sernick.
Congratulations Nick!

2019 Squapan Mountain Outfitters Bear Camp

Here are a few of the more popular woods we use.
To see more visit our website, BlackWidowBows.com

We are now offering the Arrowhead overlays in your choice of wood (with or without laser).

\$100.00

We are now offering the Snakeskin overlays.

\$150.00

Grip Comparison

Grips for PMA, PSA, PCH, PTF, PA and KB model bows.

Standard
Black Widow
Grip

Asbell Grip
Slightly larger palm swell.

Low Standard Grip
Designed with the
longbow shooter in mind.

Low Asbell Grip

Grips for the PL and PSR model bows.

Standard
Black Widow
Grip

Toby Grip
Slightly fuller and more
rounded than standard.

You can add snakeskins
to your bow. We usually have
Copperhead, Canebrake,
Prairie Rattler & Diamondbacks. Please
call for availability
and pricing.

Diamondback Skins
\$250

Double laser
overlays
available on
all models.

\$150 Per Bow

Standard Laser Bamboo Overlays.

Laser Engraved Bamboo Overlays are now available on all models. Please call to discuss your options. "Pick A Spot", "May the good Lord be your Outfitter and Guide", Whitetail Buck, Elk, Bear, Turkey, the choice is yours.

\$100 Per Bow

Model Comparison

What are the differences between our recurve bow models?

A common question we are asked is "What's the difference between the PMA, PSA and the PCH models?" The answer is quite simple. In the photo of the three 60" take-down bows on the left, notice the riser lengths of the different models. The PMA has an 18" riser with a 5" sight window. The PSA has 16" riser with a 4" sight window and the PCH has a 14" riser with a 3" sight window. Bottom line is that in these three bows the 60" PMA will have a 2" longer riser than the 60" PSA and a 4" longer riser than the 60" PCH. This allows the 60" PCH to have a 4" longer working limb than the 60" PMA and a 2" longer working limb over a 60" PSA. The advantage of the shorter risers is that you can shoot a longer working limb with the same length of bow. There will be minimal performance difference as all of the bows have the same limb design.

The length of working limb is important in determining your optimal limb length for your draw length. See RECOMMENDED LIMB LENGTHS for the various models.

The difference between the KB, PA and PTF models are much the same. The KB model will have a 2 1/2" sight window compared to 3 1/2" on the PA and PTF models. The riser on the KB model is 2" shorter, from fadeout to fadeout than the PA and PTF models.

BOW ORDERING INFORMATION, OPTIONS AND WARRANTY

Thank you for considering *Black Widow* as your custom bowyer and supplier of traditional equipment and accessories.

Black Widow bows are unique in design and very complex to build. Just the handle alone has up to thirty-seven glue lines (depending on the model) and requires as many man-hours to build as do most *complete* traditional bows being made today. Lightning fast limbs are tapered and tillered as only *Black Widow* bowyers know how. The result of all this effort and expertise is a bow... a legendary bow... a *Black Widow* bow... whose smoothness, stability and speed will amaze you. As one of our satisfied customers put it, "It's the only custom bow I've ever had, and I've had about all of them, that has everything I want. It's fast, smooth, stable and beautiful too. And all in the same bow!" ... That about says it all.

The superior performance of the *Black Widow Dyna Flex* limbs and *DynaFLIGHT 97* string allows you the luxury of being conservative in draw weight, still get excellent cast and enable you to maximize your accuracy. We suggest dropping down about 25% in draw weight when switching from a compound bow.

You may order limb weight at the traditional 28 inch draw or you may order limb weight at your actual draw. Draw length is measured from the string to the far side of the shelf, which is 1 3/4 inches longer than so-called "true draw" (which is measured to the throat of the grip). Your draw will probably be an inch or two shorter with a recurve or longbow than with a compound.

Some bowyers choose to glue-up their bow limbs a lot heavier than ordered by the customer and then simply grind enough material off to bring the weight down to the poundage ordered. This is not wise. In fact, it is very risky and may compromise the integrity of the bow. Therefore, when specifying draw weight, please allow plus or minus **two** pounds. For instance, a bow ordered at 53 pounds would allow us a range of 51 to 55 pounds. Of course we will try to come as close to the weight ordered as we possibly can. We do offer, however, to guarantee plus or minus **one** pound for an additional charge of \$25 or exact poundage (plus or minus **zero** pounds) for an additional charge of \$75. This may take considerably longer for you to receive your bow if we miss the desired poundage the first time.

PL longbows and PSR recurves are furnished with the #360 *Shur-Grip* handle wrap but can be ordered with a tailored beaver tail handle wrap for an extra charge of \$55.

Accessory inserts for side-mount quivers #444, #463 or #473 can be installed on any *Black Widow* model. Sight inserts (or *Kwikee Kwiver*) inserts can be installed on all models. Stabilizer inserts can be installed on PMA, PSA, PCH, PA and KB models only. All at no charge.

There are various options for grips. Each model has its own standard *Black Widow* grip. The PMA, PSA, PCH, PTF, PA and KB models are available with the "Asbell" grip (at no extra charge). It has a slightly larger and higher palm swell suitable for rotating the wrist as G. Fred Asbell prefers. You can also get a Standard Low Wrist or Asbell Low Wrist (no charge). Longbow shooters may prefer the Low Wrist. Or, you can have your grip custom shaped to your personal taste by loaning us a grip, handle or bow that you wish duplicated. The additional charge for a custom grip is \$100. Please call us for details.

We will be happy to personalize your bow with your name on the face of the lower limb at no extra cost. Bamboo laser overlays and snakeskins can be added for an additional charge.

LIMBS ONLY: When ordering limbs for an older handle, please remember that beginning in 2003 all limbs are "precision crafted" to much closer tolerances than previous limbs and handles. Consequently, you may not have a very good cosmetic fit of new limbs on your old handle. We can improve the fit (we can't make it perfect, but we can make it better) by re-sizing and refinishing your old handle. Although we can still make MA and SA limbs with wood riser sections, there are some advantages to the phenolic risers for you to consider. We suggest calling us before ordering LIMBS ONLY for older MA or SA handles.

All complete take-down and one-piece bows or limbs-only come with a Flemish-twist *DynaFLIGHT 97* string, bowstringer, bow tip protector, *Spider* string silencers, 1/2 dozen nocking points and the #901 Owner's Manual. In addition, both one-piece and take-down longbows come with a *Longbow* sleeve case and one-piece longbow model comes with hard case. All complete take-down and one-piece bows come with the #900 Owner's Manual Companion DVD and Calf Hair shelf rest/strike plate.

After your order is processed, you will receive a CONFIRMATION OF ORDER and your Owner's Manual Companion DVD. **Please double check this Confirmation and notify us immediately of any corrections or changes because your bow will be glued within 1 to 2 weeks after you have placed your order and most specifications can not be altered after that. Please give us a shipping address where there will be someone available to receive and sign for the bow.** Delivery time will depend on how many orders are ahead of you, but generally you can expect shipment approximately 7 to 9 weeks from the date we receive your order. However, we keep some partially completed bows in inventory which, if one meets your needs, could be finished to your specifications and shipped in possibly 2 to 4 weeks.

After you receive your bow if you have any questions or problems please do not hesitate to call us. We will do our very best to make your adventure with traditional bowhunting an exciting and rewarding experience.

FIVE YEAR PRO-RATED LIMITED WARRANTY:

Black Widow has always strived to bring you the best quality bows that you can find. In addition to that, we have taken pride in the appearance of our bows by adding many exotic woods for you to choose from. Through the years we have tried to pick out the best looking woods to make your dream bow a reality. We have also tried to use the clearest fiberglass we can find to bring out the beauty of the wood. The producers of the fiberglass used in building our bows cannot guarantee us clear, "window pane" glass. We, like the rest of the bowyers in the industry, have struggled for years with finding clear fiberglass. As a result of this we can no longer warranty bows that have small streaks in the glass. These streaks are cosmetic only and do not affect the integrity of the bow. As always, we will pick the clearest glass we can find to build our bows. Please keep in mind that the darker the limb wood, the more apt to see these slight imperfections in the fiberglass.

Should damage or failure occur to a *Black Widow* bow within a period of one year from the date of shipment due to inferior materials or workmanship we will make free repair, or replacement if repair is not possible. After the one year period, repair will be made at a reasonable charge. If, at the discretion of *Black Widow Custom Bows* repair is not possible, replacement will be made on the basis of 1/48th of the current retail price per month from the first anniversary of the date of shipment. For example, if the current price of a set of bow limbs at the time of replacement is \$645, the per month replacement charge from the first anniversary date of shipment would be \$13.44 per month. If this were to happen after 24 months from the date of shipment (12 months from first anniversary date) the replacement cost would be \$161.28 (\$13.44 x 12 months). Replacement will be made with a bow of the same model, or as near as possible if models have changed.

THIS WARRANTY APPLIES TO THE ORIGINAL OWNER ONLY.

The above provisions will apply unless the bow shows evidence of misuse, abuse, alteration, improper handling, or damage as a result of shooting arrows weighing less than 8 grains per pound of draw weight (we recommend 9 to 11 or more; especially with long draw lengths of 29 inches or more, which can significantly increase the possibility of limb tip damage when using a high performance bowstring) or during the stringing or unstringing process.

No adjustment can be made until the bow is returned to *Black Widow Custom Bows* for inspection. If it is necessary to return your bow to the factory for repair be certain to pack it carefully to prevent damage from shipping. To insure that you do not do something that will void your warranty be sure to read and follow the instructions in the Owners Manual and watch the Owner's Manual DVD before assembling, stringing and shooting your bow.

Black Widow Custom Bows
Owner's Manual
Companion DVD and Scrapbook
Vol. II

900 Black Widow Custom Bows OWNER'S MANUAL COMPANION DVD AND SCRAPBOOK, VOL II \$19 Each

This DVD was produced to assist you in setting up your *Black Widow Bow*. It follows along with the printed Owner's Manual to help you assemble your bow, install the string silencers, string your bow, maintain limb alignment, store your bow, care for the bowstring and the finish, tune your bow and select the right arrow. The scrapbook section gives you a little of the history of *Black Widow* and a glimpse into the world of the Widow Workers practicing their craft and having fun at work and at play. Plus a section with Toby Essick and Roger Fulton taking you through the process of setting up your new bow. (Furnished with all complete take-down and one-piece *Black Widow Bow* purchases.)

901 Black Widow OWNER'S MANUAL \$3 Each

The "do's and don'ts" of caring for a recurve and longbow, as well as other valuable information about tuning and shooting off-the-shelf. (Furnished with all *Black Widow* bow purchases.)

926 MASTERS OF THE BAREBOW DVDs \$15 Each

Denny Sturgis, Jr. and Darryl Quidort have done it again. Nowhere else will you find such a variety of one-on-one shooting instruction. *Please specify volume(s).*

Volume 1

Nine of traditional archery's top shooters and most accomplished hunters demonstrate that there's more than one way to get your arrows to the target using everything from simple selfbows to state-of-the-art recurves.

Volume 2

Learn how to Shoot World Class on the range or in the field, plus arrow tuning segments from Ken Beck, David Soza and Rod Jenkins.

Volume 3

Perfect your shooting by mastering your own shot sequence with easy drills and exercises. Rod Jenkins, IBO World Champion and Larry Yien, 3 time IFFA World Longbow Champion, show you how. Use flash images, build a forgiving shot, and grooving it into the subconscious mind. Stay calm during high-pressure hunting and break down the shot to understand shot sequence.

Volume 4

The Mental Side of the Shot... Psychology professor Jay Kidwell Ph.D. explains and shares some drills to get your subconscious mind back on track. Archery & firearms instructor and SWAT team leader Joel Turner teaches his system of high-stress shot psychology. Rod Jenkins covers analysis and offers new thoughts on shot sequence and bow tuning. Successful bowhunter, Denny Sturgis Jr., explains string bow staining and string blur, and their benefit to your shooting consistency and confidence.

Volume 5

Archery fundamentals, refined details, and proven mental thought processes that will help you perform when the heat is on! Archery coach and IBO champ Rod Jenkins reveals knowledge from 7 years of teaching and conducting barebow clinics. Archery champion Jason Westbrook shares his thoughts, techniques and tips on all disciplines of archery. Dale Karch of 3 Rivers Archery explains why equipment choices and proper tuning are so important. Randy Cooling covers low light, shooting techniques, realistic hunting practice, and transitioning from split-finger instinctive to 3 under gapping. Denny Sturgis, Jr. discusses face walking for hunting and revisits beating short draw syndrome.

931 INSTINCTIVE SHOOTING DVD with G. Fred Asbell \$25 Each

First there was the book, *Instinctive Shooting*, the most popular and most recommended bow shooting and bowhunting book for traditionalists ever. Then there was a video, *Instinctive Shooting*, and a second book, *Instinctive Shooting 2*, all by G. Fred Asbell. This DVD is based on the content of Mr. Asbell's first two books, *Instinctive Shooting Vol 1* and *Instinctive Shooting Vol 2*. It is without question the most complete, step-by-step, instructional DVD ever produced on instinctive shooting.

932-2 ADVANCED INSTINCTIVE SHOOTING FOR BOWHUNTING: THE REST OF THE STORY (book) \$28 Each

Traditional bowhunting continually brings the bowhunter face to face with self improvement. That's the underlying thrust of this book... the individual, preparing and using his God-given skill, pushing himself forward. Here are the step-by-step details for consistent shooting in the woods, where control and confidence are put to the test. You have the ability in you and it's all right here. You are in control of how good you can become, it's up to you.

933 WHITETAIL MAGIC book \$25 Each While Supplies Last

You will learn much from this accumulation of more than forty years of adventures, techniques and observations in trophy whitetail hunting by Roger Rothhaar. He has accumulated an impressive record as a hunter of trophy whitetails with his top six bucks totaling an impressive 988 P&Y / B&C inches! (Several taken with a *Black Widow*.)

Black Widow Custom Bows

INSTINCTIVE SHOOTING CLINIC

Location: Black Widow Custom Bows, Nixa, MO, U.S.A.

This past May we finished the nineteenth consecutive year of *Black Widow Instinctive Shooting Clinics* conducted by G. Fred Asbell and Ken Beck. We are receiving reservations for 2020. Should you decide to enroll and join us in a future clinic, it is our hope that you would accomplish your goal of becoming a better archer.

2020 tuition: \$410 per person
With \$100 non-refundable deposit. Balance due March 1, 2020.

2020 Dates:
May 7th, 8th & 9th
(Thursday, Friday & Saturday)
Location: Black Widow Custom Bows, Nixa, MO, U.S.A.

For more information please contact: *Black Widow Custom Bows*

Phone: 417-725-3113 • Fax: 417-725-3190
Website: BlackWidowBows.com
E-mail: info@blackwidowbows.com

Fellow Bowhunters,

We all want to be the best we can be when it comes to hunting with the bow and arrow. Bowhunting is a great and challenging endeavor and probably only a few people ever reach their maximum potential. Which, in many ways is unfortunate. Not just because it means you'll be less successful, but also because maximizing your potential means understanding and becoming a part of the great outdoor world into which bowhunting takes us. And, for many of us, turns bowhunting into a life altering experience.

But, in the end, the concrete purpose of this workshop is to make you a better bowhunter. If you truly believe you can become a better bowhunter, this is the experience for you. If you want to know you can trust your equipment, know you can trust your instincts and make that killing shot time after time, you need to come join us.

G. Fred Asbell

"I've hunted around the world with a Black Widow recurve for 25 years. My go-to bow is a 62" PMA. Thanks for making the most durable and accurate bows I have ever shot."

Randy Cooling

Camo

PMA Series

The PMA series take-downs are designed with greater accuracy, detail and consistency than we have ever been able to achieve in the past. The black “phenolic” riser sections of the handle and limbs make a distinctive two-tone contrast; plus they are more impervious to moisture in the critical areas around the mounting pins and limb bolts. The extended shelf provides more protection for the hand and the outside edge of the shelf is relieved to make it easier to achieve good arrow flight off-the-shelf. If smoothness and comfort are more important to you than maneuverability, then the PMA series may be your *Black Widow* of choice. The longer handle, with it’s long sight window, also permits the use of sights if that is your game (see RECOMMENDED LIMB LENGTHS).

- **DYNA FLEX TRAPEZOID LIMBS:** 58", 60", 62" and 64". Black phenolic riser sections. Vertically stacked, tapered laminations reinforced with a woven glass center core. Faced with transparent fiberglass. Flemish-twist *DynaFLIGHT 97* string.
- **HANDLE:** 18 inches. Deflex design. Reinforced with pre-stressed multiple layers of red and black fiberglass. Full 5 inch sight window cut 3/16 of an inch past center. Extended radiused shelf. *Black Widow* medallion inlay. Brass inserts for side-mount quivers, sight or stabilizer available at no additional charge (please specify).
- **BRACE HEIGHT:** 8 ¼ to 9 inches (from string to throat of grip).
- **MASS WEIGHT:** 3 ¼ pounds for 60" bow.
- **FINISH:** Sealed and protected in nonreflective “Frost” (matte) clear marine epoxy. All inserts and bushings are solid brass.

PMA II *Graybark* TAKE-DOWN RECURVE: The natural camouflage of the “*Graybark*” birch laminations blends beautifully with the gray of tree bark, trunks and limbs.

Complete: \$1075 Limbs Only: \$645 Handle Only: \$430

PMA III *Autumn Oak* TAKE-DOWN RECURVE: The “*Autumn Oak*” birch laminations have the same hue as the leaves of a frosted oak during the fall whitetail hunting season.

Complete: \$1075 Limbs Only: \$645 Handle Only: \$430

PMA IV *Greenleaf* TAKE-DOWN RECURVE: The “*Greenleaf*” birch laminations will blend in with about any hunting situation. Whether out west, your favorite tree stand or chasing those spring turkeys! (See photo on page 30.)

Complete: \$1075 Limbs Only: \$645 Handle Only: \$430

PMA V *Ironwood* TAKE-DOWN RECURVE: The “*Ironwood*” bow has vertically stacked, bamboo laminations in the limbs to further enhance the feel and performance. We stain the bamboo laminations to compliment the rich, brown color of the exotic wood in the riser.

Complete: \$1175 Limbs Only: \$705 Handle Only: \$470

PMA X *Exotic* TAKE-DOWN RECURVE: X stands for “*Exotic!*” We can build your X bow with one of several exotic woods of your choice (see page 1). All of the *Exotic* models (with the exception of Osage and Yew) will have vertically stacked, bamboo laminations in the limbs to further enhance the feel and performance. This may require some planning and discussion by phone, please call us for details.

Complete: \$1300 Limbs Only: \$780 Handle Only: \$520

COMPLETE BOW COMES WITH:

- | | |
|--|--|
| #300 ..Flemish-twist <i>DynaFLIGHT 97</i> string | #322 ..Calf Hair shelf rest / strike plate |

PMA II
Graybark

PMA III
Autumn Oak

PMA V
Ironwood

PMA X
Bocote

PMA SERIES: RECOMMENDED LIMB LENGTHS

24" to 28" Draw → 58" Limbs

26" to 30" Draw → 60" Limbs

28" to 32" Draw → 62" Limbs

30" to 34" Draw → 64" Limbs

(Draw measured from string to far side of shelf)

At your draw length you may opt for the shorter limb that is a little more maneuverable or for the longer limb that is slightly more comfortable. The decision is yours.

Chase Niblock and his Michigan buck.

“Anytime I pick up my PSA and head into the wilderness I know it will perform without issue. The bow just flat out shoots and it’s one piece of my equipment that I don’t need to worry about!”
Aron Snyder, Kifaru International

PSA Series

The PSA series take-downs are designed with greater accuracy, detail and consistency than we have ever been able to achieve in the past. The black "phenolic" riser sections of the handle and limbs make a distinctive two-tone contrast; plus they are more impervious to moisture in the critical areas around the mounting pins and limb bolts. The extended shelf provides more protection for the hand and the outside edge of the shelf is relieved to make it easier to achieve good arrow flight off-the-shelf. The PSA has a two inch shorter handle than the PMA series and is intended for the instinctive shooter that can utilize a shorter sight window than the PMA series. The shorter handle, in turn, allows for a comparatively longer working limb, making it possible to use a shorter overall bow length for greater maneuverability (see RECOMMENDED LIMB LENGTHS).

- **DYNA FLEX TRAPEZOID LIMBS:** 56", 58", 60" and 62". Black phenolic riser sections. Vertically stacked, tapered laminations reinforced with a woven glass center core. Faced with transparent fiberglass. Flemish-twist DynaFLIGHT 97 string.
- **HANDLE:** 16 inches. Deflex design. Reinforced with pre-stressed multiple layers of red, black and white fiberglass. Full 4 inch sight window cut 3/16 of an inch past center. Extended radiused shelf. *Black Widow* medallion inlay. Brass inserts for side-mount quivers, sight or stabilizer available at no additional charge (please specify).
- **BRACE HEIGHT:** 8 ¼ to 9 inches (from string to throat of grip).
- **MASS WEIGHT:** 3 pounds for 58" bow.
- **FINISH:** Sealed and protected in nonreflective "Frost" (matte) clear marine epoxy. All inserts and bushings are solid brass.

PSA II Graybark **PSA III** Autumn Oak **PSA V** Ironwood **PSA X** Curly Maple **PSA X** Bocote

PSA II Graybark TAKE-DOWN RECURVE: The natural camouflage of the "Graybark" birch laminations blends beautifully with the gray of tree bark, trunks and limbs.

Complete: \$1075 Limbs Only: \$645 Handle Only: \$430

PSA III Autumn Oak TAKE-DOWN RECURVE: The "Autumn Oak" birch laminations have the same hue as the leaves of a frosted oak during the fall whitetail hunting season.

Complete: \$1075 Limbs Only: \$645 Handle Only: \$430

See bow ordering information on page 4 for draw weight suggestions, available options, warranty and other important information.

PCH X Black and White Ebony

PCH Series

The PCH was conceived in the shadows of the PMA and the PSA to meet a growing desire for a compact, handier and more maneuverable weapon for close quarter shooting from ground blinds, brush or tree stands. The PRECISION COMPACT HUNTER has the same deep-deflex design as it's cousins but with a shorter riser allowing for a generous working limb. This provides you with a short, compact bow with less finger pinch and a smoother draw than most other bows of the same limb length. Whether contorting to get a shot from a ground blind, twisting to take that big buck that slipped in behind your tree stand or chasing after elk on horseback in the high country of the Rocky Mountains, this *Widow* gives you the best of both worlds... SHORT and SWEET! The PCH bows are designed to have a two inch shorter handle than the PSA series. (see RECOMMENDED LIMB LENGTHS).

- **DYNA FLEX TRAPEZOID LIMBS:** 54", 56", 58" and 60". Black phenolic riser sections. Vertically stacked, tapered laminations reinforced with a woven glass center core. Faced with transparent fiberglass. Flemish-twist *DynaFLIGHT 97* string.
- **HANDLE:** 14 inches. Deflex design. Reinforced with pre-stressed multiple layers of red, black and white fiberglass. Full 3 inch sight window cut 1/8 of an inch past center. Extended radiused shelf. *Black Widow* medallion inlay. Brass inserts for side-mount quivers, sight or stabilizer available at no additional charge (please specify).
- **BRACE HEIGHT:** 8 to 8 3/4 inches (from string to throat of grip).
- **MASS WEIGHT:** slightly less than 3 pounds for 58" bow.
- **FINISH:** Sealed and protected in nonreflective "Frost" (matte) clear marine epoxy. All inserts and bushings are solid brass.

PCH II *Graybark* TAKE-DOWN RECURVE: The natural camouflage of the "*Graybark*" birch laminations blends beautifully with the gray of tree bark, trunks and limbs.

Complete: \$1075 Limbs Only: \$645 Handle Only: \$430

PCH III *Autumn Oak* TAKE-DOWN RECURVE: The "*Autumn Oak*" birch laminations have the same hue as the leaves of a frosted oak during the fall whitetail hunting season.

Complete: \$1075 Limbs Only: \$645 Handle Only: \$430

PCH IV *Greenleaf* TAKE-DOWN RECURVE: The "*Greenleaf*" birch laminations will blend in with about any hunting situation. Whether out west, your favorite tree stand or chasing those spring turkeys! (See photo on page 30.)

Complete: \$1075 Limbs Only: \$645 Handle Only: \$430

PCH V *Ironwood* TAKE-DOWN RECURVE: The "*Ironwood*" bow has vertically stacked, bamboo laminations in the limbs to further enhance the feel and performance. We stain the bamboo laminations to compliment the rich, brown color of the exotic wood in the riser.

Complete: \$1175 Limbs Only: \$705 Handle Only: \$470

PCH X *Exotic* TAKE-DOWN RECURVE: X stands for "*Exotic!*" We can build your X bow with one of several exotic woods of your choice (see page 1). All of the *Exotic* models (with the exception of Osage and Yew) will have vertically stacked, bamboo laminations in the limbs to further enhance the feel and performance. This may require some planning and discussion by phone, please call us for details.

PCH SERIES: RECOMMENDED LIMB LENGTHS

- 22" to 26" Draw → 54" Limbs
- 24" to 28" Draw → 56" Limbs
- 26" to 30" Draw → 58" Limbs
- 28" to 32" Draw → 60" Limbs

(Draw measured from string to far side of shelf)

At your draw length you may opt for the shorter limb that is a little more maneuverable or for the longer limb that is slightly more comfortable. The decision is yours.

Widow Worker Tyler Langston and his first Oklahoma Traditional Buck. Thanks for the great hunt Pete!

PTF Series

PTF II Graybark **PTF III** Autumn Oak **PTF V** Ironwood **PTF X** Birdseye Maple

PTF SERIES: RECOMMENDED LIMB LENGTHS

- 23" to 27" Draw → 56" Limbs
- 24" to 29" Draw → 58" Limbs
- 27" to 31" Draw → 60" Limbs
- 29" to 33" Draw → 62" Limbs

(Draw measured from string to far side of shelf)

At your draw length you may opt for the shorter limb that is a little more maneuverable or for the longer limb that is slightly more comfortable. The decision is yours.

999 Black Widow GIFT CERTIFICATE:
Eliminate the guess work and let them get exactly what they want.

\$25 Minimum please

The PTF is a gracefully sculpted, one-piece bow with exactly the same limb design and geometry as the PSA and PA Models. The riser and limbs are now designed with greater accuracy, detail and consistency than we have ever been able to achieve in the past. Like all *Black Widows*, the PTF has an extended radiused shelf which makes it great for the instinctive shooter who prefers shooting off-the-shelf. The outside edge of the shelf is relieved to make it easier to achieve good arrow flight off-the-shelf (see RECOMMENDED LIMB LENGTHS).

- **DYNA FLEX TRAPEZOID LIMBS:** 56", 58", 60" and 62". Vertically stacked, tapered laminations reinforced with a woven glass center core. Faced with transparent fiberglass. Flemish-twist DynaFLIGHT 97 string.
- **RISER:** Deflex design. Reinforced with pre-stressed multiple layers of red and black fiberglass. Full 3 1/2 inch sight window cut 3/16 of an inch past center. Extended radiused shelf. *Black Widow* medallion inlay. Brass inserts for side-mount quivers or sight available at no additional charge (please specify).
- **BRACE HEIGHT:** 8 1/4 to 9 inches (from string to throat of grip).
- **MASS WEIGHT:** 2 1/4 pounds for 58" bow.
- **FINISH:** Sealed and protected in nonreflective "Frost" (matte) clear marine epoxy. All inserts are solid brass.

PTF II Graybark ONE-PIECE RECURVE: The natural camouflage of the "Graybark" birch laminations blends beautifully with the gray of tree bark, trunks and limbs.

\$1075

PTF III Autumn Oak ONE-PIECE RECURVE: The "Autumn Oak" birch laminations have the same hue as the leaves of a frosted oak during the fall whitetail hunting season.

\$1075

PTF IV Greenleaf ONE-PIECE RECURVE: The "Greenleaf" birch laminations will blend in with about any hunting situation. Whether out west, your favorite tree stand or chasing those spring turkeys! (See photo on page 30.)

\$1075

PTF V Ironwood ONE-PIECE RECURVE: The "Ironwood" bow has vertically stacked, bamboo laminations in the limbs to further enhance the feel and performance. We stain the bamboo laminations to compliment the rich, brown color of the exotic wood in the riser.

\$1175

PTF X Exotic ONE-PIECE RECURVE: X stands for "Exotic!" We can build your **X** bow with one of several exotic woods of your choice (see page 1). All of the *Exotic* models (with the exception of Osage and Yew) will have vertically stacked, bamboo laminations in the limbs to further enhance the feel and performance. This may require some planning and discussion by phone, please call us for details.

\$1300

PA XS Spliced Chechen and Curly Maple

PA Series

We have taken the design of our 50th Anniversary PGA bow and built the PA one-piece recurve. It has the same limb design and geometry of the PSA and PTF models. The riser has slightly more mass weight than the PTF and looks more like a one-piece PSA. Like the PSA and PTF, it has extended radiused shelf which makes it great for the instinctive shooter who prefers shooting off-the-shelf. The outside edge of the shelf is relieved to achieve good arrow flight off-the-shelf (see RECOMMENDED LIMB LENGTHS).

- **DYNA FLEX TRAPEZOID LIMBS:** 56", 58", 60" and 62". Vertically stacked, tapered laminations reinforced with a woven glass center core. Faced with transparent fiberglass. Flemish-twist DynaFLIGHT 97 string.
- **RISER:** Deflex design. Reinforced with pre-stressed multiple layers of red and black fiberglass. Full 3 1/2 inch sight window cut 3/16 of an inch past center. Extended radiused shelf. *Black Widow* medallion inlay. Brass inserts for side-mount quivers, sights or stabilizer available at no additional charge (please specify).
- **BRACE HEIGHT:** 8 1/4 to 9 inches (from string to throat of grip).
- **MASS WEIGHT:** 2 3/4 pounds for 58" bow.
- **FINISH:** Sealed and protected in nonreflective "Frost" (matte) clear marine epoxy. All inserts are solid brass.

PA II Graybark ONE-PIECE RECURVE: The natural camouflage of the "Graybark" birch laminations blends beautifully with the gray of tree bark, trunks and limbs.

\$1075

PA III Autumn Oak ONE-PIECE RECURVE: The "Autumn Oak" birch laminations have the same hue as the leaves of a frosted oak during the fall whitetail hunting season.

\$1075

PA IV Greenleaf ONE-PIECE RECURVE: The "Greenleaf" birch laminations will blend in with about any hunting situation. Whether out west, your favorite tree stand or chasing those spring turkeys! (See photo on page 30.)

\$1075

PA V Ironwood ONE-PIECE RECURVE: The "Ironwood" bow has vertically stacked, bamboo laminations in the limbs to further enhance the feel and performance. We stain the bamboo laminations to compliment the rich, brown color of the exotic wood in the riser.

\$1175

PA X Exotic ONE-PIECE RECURVE: X stands for "Exotic!" We can build your X bow with one of several exotic woods of your choice (see page 1). All of the Exotic models (with the exception of Osage and Yew) will have vertically stacked, bamboo laminations in the limbs to further enhance the feel and performance. This may require some planning and discussion by phone, please call us for details.

PA SERIES: RECOMMENDED LIMB LENGTHS

- 23" to 27" Draw → 56" Limbs
- 25" to 29" Draw → 58" Limbs
- 27" to 31" Draw → 60" Limbs
- 29" to 33" Draw → 62" Limbs

(Draw measured from string to far side of shelf)

At your draw length you may opt for the shorter limb that is a little more maneuverable or for the longer limb that is slightly more comfortable. The decision is yours.

Black Widow inlay.

Ken Beck and his North Missouri Buck

KB Series

Your adventure begins here! The KB recurve model is simply a one-piece version of the PCH take-down with the graceful curves of a lovely lady. The KB designation was given in honor of the previous owner of *Black Widow Custom Bows*, Ken Beck. Ken has come to prefer the "SHORT and SWEET" hunting advantages of these compact bows. It has an extended radiused shelf which makes it great for the instinctive shooter who prefers shooting off-the-shelf. The outside edge of the shelf is relieved to achieve good arrow flight (see RECOMMENDED LIMB LENGTHS).

- **DYNA FLEX TRAPEZOID LIMBS:** 54", 56", 58" and 60". Vertically stacked, tapered laminations reinforced with a woven glass center core. Faced with transparent fiberglass. Flemish-twist DynaFLIGHT 97 string.
- **RISER:** Deflex design. Reinforced with pre-stressed multiple layers of red and black fiberglass. Full 2 1/2 inch sight window cut 1/8 of an inch past center. Extended radiused shelf. *Black Widow* medallion inlay. Brass inserts for side-mount quivers, sights or stabilizer available at no additional charge (please specify).
- **BRACE HEIGHT:** 8 to 8 3/4 inches (from string to throat of grip).
- **MASS WEIGHT:** 2 1/2 pounds for 58" bow.
- **FINISH:** Sealed and protected in nonreflective "Frost" (matte) clear marine epoxy. All inserts are solid brass.

KB II Graybark ONE-PIECE RECURVE: The natural camouflage of the "Graybark" birch laminations blends beautifully with the gray of tree bark, trunks and limbs.

\$1075

KB III Autumn Oak ONE-PIECE RECURVE: The "Autumn Oak" birch laminations have the same hue as the leaves of a frosted oak during the fall whitetail hunting season.

\$1075

At your draw length you may opt for the shorter limb that is a little more maneuverable or for the longer limb that is slightly more comfortable. The decision is yours.

Duane Carroll and his Montana Elk

Denny Sturgis and his Michigan Buck

BACK TO THE FIFTIES! The *Black Widow* "SHORT" recurve (PSR) was designed for the hunter who loves the simple, nostalgic look of the 1950s and longs for a short, more maneuverable bow but without the stack and finger pinch that normally occurs with shorter bows. As was often the case in those days, this recurve has a longbow grip and riser. It has exactly the same grip and riser as our PL longbow, which makes it unbelievably easy to switch back and forth between these two bows. What about performance? The PSR series matches the performance of all our other models. Need we say more? Available in one-piece or take-down version (see photo below). See RECOMMENDED LIMB LENGTHS below.

- **DYNA FLEX TRAPEZOID LIMBS:** 56", 58" and 60". Vertically stacked, tapered laminations reinforced with a woven glass center core. Faced and backed with transparent fiberglass. Flemish-twist DynaFLIGHT 97 string.
- **RISER:** Deflex design. Reinforced with pre-stressed, multiple layers of fiberglass on the back side of trim stripe that extend into the fadeouts. Tapered 2 3/4 inch sight window cut to center. Radiused shelf. *Black Widow* medallion inlay. Shur-Grip rubber handle wrap that can easily be rolled off or on, as preferred.
- **BRACE HEIGHT:** 7 to 7 3/4 inches (from string to throat of grip).
- **MASS WEIGHT:** 1 3/4 pounds for 56" bow.
- **FINISH:** Sealed and protected in nonreflective "Frost" (matte) clear marine epoxy. All inserts are solid brass.

PSR II Graybark ONE-PIECE or TAKE-DOWN RECURVE: The natural camouflage of the "Graybark" birch laminations blends beautifully with the gray of tree bark, trunks and limbs.

One-Piece \$1025 Take-Down \$1125

PSR III Autumn Oak ONE-PIECE or TAKE-DOWN RECURVE: The "Autumn Oak" birch laminations have the same hue as the leaves of a frosted oak during the fall whitetail hunting season.

One-Piece \$1025 Take-Down \$1125

PSR IV Greenleaf ONE-PIECE or TAKE-DOWN RECURVE: The "Greenleaf" birch laminations will blend in with about any hunting situation. Whether out west, your favorite tree stand or chasing those spring turkeys! (See photo on page 30.)

One-Piece \$1025 Take-Down \$1125

PSR V Ironwood ONE-PIECE or TAKE-DOWN RECURVE: The "Ironwood" bow has vertically stacked, bamboo laminations in the limbs to further enhance the feel and performance. We stain the bamboo laminations to compliment the rich, brown color of the exotic wood in the riser.

One-Piece \$1125 Take-Down \$1225

PSR X Exotic ONE-PIECE or TAKE-DOWN RECURVE: X stands for "Exotic!" We can build your X bow with one of several exotic woods of your choice (see page 1). All of the Exotic models (with the exception of Osage and Yew) will have vertically stacked, bamboo laminations in the limbs to further enhance the feel and performance. This may require some planning and discussion by phone, please call us for details.

One-Piece \$1225 Take-Down \$1325

PSR SERIES: RECOMMENDED LIMB LENGTHS

- 24" to 28" Draw → 56" Limbs
- 26" to 30" Draw → 58" Limbs
- 28" to 32" Draw → 60" Limbs

“I took this nice tom with a PL Takedown bow, 62", 46# @ 28". The 400 Black Eagle Arrow, tipped with a sharp Zwickey, proved lethal. Thanks to Dillon and Samantha at Ridge Runners Outfitting in Burns, Colorado for a great hunt! If you are looking for a lion hunt, this is the place! Give them a call or look them up at (970) 653-7239 or info@ridgerunnersoutfitting.com or <http://www.ridgerunnersoutfitting.com>”

Toby Essick

PL Series

You just may fall in love with this long, lean and lovely lady with just enough curves to turn on any red-blooded bowhunter. Even though she appears very slim and delicate, she packs a powerful punch. In fact, she zings a heavy arrow as fast as our recurves. The locator grip provides positive and consistent hand placement, yet has a traditional appearance. Most *Black Widow* recurve shooters can pick up this longbow, grip it by the throat just like they do their recurve and immediately hit where they look without having to make adjustments. In fact, the PSR recurve has exactly the same grip and riser as this longbow. This makes it unbelievably easy to switch back and forth between these two bows. You have to shoot this bow to believe it! (See our TEST DRIVE program on page two.) Available in a one-piece or take-down version. See RECOMMENDED LIMB LENGTHS.

- **DYNA FLEX TRAPEZOID LIMBS:** 60", 62", 64" and 66". Reflex design. Vertically stacked, tapered laminations reinforced with a woven glass center core. Faced and backed with transparent Fiberglass with a veneer lamination and carbon under the back glass. Flemish-twist DynaFLIGHT 97 string.
- **RISER:** Deflex design. Reinforced with pre-stressed, multiple layers of fiberglass on the back side of trim stripe that extend into the fadeouts. Tapered 2 3/4 inch sight window cut to center. Radiused shelf. *Black Widow* medallion inlay. Shur-Grip rubber handle wrap that can easily be rolled off or on, as preferred.
- **BRACE HEIGHT:** 7 to 7 3/4 inches (from string to throat of grip).
- **MASS WEIGHT:** 1 3/4 pounds for 64" bow.
- **FINISH:** Sealed and protected in nonreflective "Frost" (matte) clear marine epoxy. All inserts are solid brass.

PL II Graybark ONE-PIECE or TAKE-DOWN LONGBOW: The natural camouflage of the "Graybark" birch laminations blends beautifully with the gray of tree bark, trunks and limbs.

One-Piece \$1025 Take-Down \$1125

PL III Autumn Oak ONE-PIECE or TAKE-DOWN LONGBOW: The "Autumn Oak" birch laminations have the same hue as the leaves of a frosted oak during the fall whitetail hunting season.

One-Piece \$1025 Take-Down \$1125

PL IV Greenleaf ONE-PIECE or TAKE-DOWN LONGBOW: The "Greenleaf" birch laminations will blend in with about any hunting situation. Whether out west, your favorite tree stand or chasing those spring turkeys! (See photo on page 30.)

One-Piece \$1025 Take-Down \$1125

PL V Ironwood ONE-PIECE or TAKE-DOWN LONGBOW: The "Ironwood" bow has vertically stacked, bamboo laminations in the limbs to further enhance the feel and performance. We stain the bamboo laminations to compliment the rich, brown color of the exotic wood in the riser.

One-Piece \$1125 Take-Down \$1225

PL X Exotic ONE-PIECE or TAKE-DOWN LONGBOW: X stands for "Exotic!" We can build your X bow with one of several exotic woods of your choice (see page 1). All of the Exotic models (with the exception of Osage and Yew) will have vertically stacked, bamboo laminations in the limbs to further enhance the feel and performance. This may require some planning and discussion by phone, please call us for details.

Camo

Back, Side & Hip Quivers

100 SAFARI SHOULDER QUIVER (Leather or Camo) \$121 Each TWO-TONE LEATHER \$136 Each

Brown oil tanned leather with contrasting stitching. Comfortable double straps snap to the breast plate that is embossed with the *Black Widow* logo. 22" long with 6" opening. Large, zippered pouch for accessories. Ethafoam bottom provides secure broadhead placement so they won't dull themselves by rubbing against each other. You can place one or two of your choice arrows in the special separated "ready tube." This tube allows you to quietly pull out and replace your choice arrow without damaging the other arrows or dulling the broadheads. Available in brown oil tanned leather, two tone leather or camo. Please specify COLOR and RIGHT or LEFT hand.

110 SLIM-LINE SHOULDER QUIVER \$98 Each TWO-TONE \$113 Each

Brown oil tanned leather with contrasting stitching. Light weight, single strap design. 18 1/2" long with 3 3/4" opening. By pressing the points of your broadheads into the ethafoam bottom you can secure their position to keep them from rubbing together and dulling themselves. Adjustable shoulder strap. Embossed *Black Widow* logo. Available in brown oil tanned leather or two tone leather. Please specify COLOR and RIGHT or LEFT hand.

111 ARROWMASTER QUIVER \$145 Each

By Rod Jenkins. This Quiver provides all the features you require in quality gear: quietness, water repellency, and durability. A total quiver weight of one pound five ounces makes the ARROWMASTER a joy to carry! The broadhead proof end cap, featuring a full 1.5 inches of foam, provides absolute broadhead safety and retention. Please specify RIGHT or LEFT hand.

120 SIDEWINDER HIP QUIVER \$72 Each

Brown oil tanned leather with contrasting stitching. Securely holds six arrows. Double snap belt loop, elastic leg cord and cord lock provide quick attachment and release. Top and bottom hanger loops or leg cord enable you to conveniently hang quiver while on tree stand. Embossed *Black Widow* logo. Angle reverses for right or left hand.

121 ULTIMATE ROVER SIDE QUIVER \$94 Each

Features the simplicity of a pocket quiver. With the added ability of the MAGNETIC holder, this quiver lets you safely and securely carry three Judo points. With multi-carry capability, this is the perfect grab-n-go quiver for a quick outing of roving, stumps, and other targets of opportunity. Simply slide it on your belt (belt not included) and you're ready to go shoot. Angle reverses for right or left hand. Available in Black or Brown leather with red stitching.

125 SELWAY HIP QUIVER \$169 Each

Traditional design with hand-stitched rawhide cup and leg plate. Double snap belt loop. Angle reverses for right or left hand. Available in **four** or **five** arrow capacity. Please specify ARROW CAPACITY.

126 THUNDERHORN BANDOLERO HIP QUIVER \$145 Each

Contrasting hand-stitched hood and body. Double snap belt loop for quick attachment and release. Elastic leg cord also works great to hang quiver while on tree stand. *Black Widow* logo. Angle reverses for right or left hand. Easily adjusts for up to six arrows.

129 GREAT NORTHERN *Black Widow* SIDE QUIVER \$105 Each

Adjustable shoulder strap. Holds five arrows. Choice of black or tan hand stitched leather cup. *Black Widow* logo. Also available with Gold Tip rubber arrow gripper. Please specify COLOR and Gold Tip (if desired).

130 FIELD HIP QUIVER \$69 Each TWO-TONE \$78 Each

Brown oil tanned leather with contrasting stitching. Designed for target or practice range. Roomy accessory pouch. Embossed *Black Widow* name. Available in brown oil tanned leather or two tone leather. Please specify COLOR and RIGHT or LEFT hand.

150 BELT POUCH \$29 Each

Brown oil tanned leather with contrasting stitching. 1 1/2" x 5 1/2" x 7" leather pouch is ideal for carrying your tools of your trade, including binoculars, tree steps, extra bowstring, etc. Embossed *Black Widow* name.

Arm Guards, Gloves & Tabs

200 TRADITIONAL ARM GUARD \$19 Each

Brown oil tanned leather with contrasting stitching. 7 5/8" long with three hooks and three elastic cords for quick arm placement. Embossed *Black Widow* logo.

201 PDQ ARM GUARD \$17 Each

Brown oil tanned leather with contrasting stitching. 6 7/8" long with double hook and single elastic cord and cord lock for the ultimate in quick and easy adjustment and arm placement. Embossed with *Black Widow* logo.

202 THUNDERHORN Black Widow LEATHER ARM GUARD \$39 Each

Contrasting overlay pieces act as edge reinforcements for the stretch loops and fasteners. The "two stretch loop" method of attaching the guard to your arm makes this secure and amazingly easy to put on. *Black Widow* laser engraved logo.

207 Black Widow EZ ARM GUARD \$24 Each

Two Tone contrasting leather with three hooks and elastic straps. *Black Widow* laser logo.

210 PDQ GLOVE \$12 Each

Brown oil tanned leather with contrasting stitching. Double-seam, closed-tip fingers. Elastic back, velcro-fastened wrist strap for quick and easy adjustment. Embossed with *Black Widow* name. Available in sizes small, medium, large or X-large. Please specify SIZE.

211 PDQ SUPER GLOVE \$16 Each

Brown oil tanned leather with contrasting stitching. Same as above but with finger overlays to add protection to sensitive fingers and help you release the string cleanly. Available in sizes small, medium, large or X-large. Please specify SIZE.

212 STICK-TITE GLOVE \$21 Each

Brown oil tanned leather with contrasting stitching. This European design eliminates the problem of the finger stalls slipping loose after each shot. The narrow, between-the-fingers double straps maintain tension before, during and after the shot to insure that the stalls "Stick Tight" to the fingers (like stick-tight weed seeds stick to wool pants). Velcro fastened wrist strap for quick and easy adjustment. Embossed *Black Widow* logo. Available in sizes small, medium, large or X-large. Please specify SIZE.

213 STICK-TITE SUPER GLOVE \$24 Each

Brown oil tanned leather with contrasting stitching. Same as above with finger overlays to add protection for sensitive fingers and help you release the string cleanly. Available in sizes small, medium, large or X-large. Please specify SIZE.

223 DAMASCUS GLOVE \$17 Each

If you like to "feel" the string you will love this soft and pliable glove. Reinforced tips, velcro-fastened elastic wristband. Available in sizes small, medium, large and X-large. Please specify SIZE.

224 DEERSKIN GLOVE \$24 Each

Similar to #223 but made of heavier soft deerskin leather for more protection. Available in sizes medium and large only. Please specify SIZE.

230 PALM TAB \$14 Each

Simple is sometimes better, especially when hunting. This grey and black leather tab can hang from your wrist by the elastic cord and then quickly and securely be palmed when you are ready to draw. Can be used with or without "can't pinch" spacer. Available in sizes small, medium or large. Please specify SIZE and RIGHT or LEFT hand.

231 SAFARI TUFF TAB, SPLIT FINGER \$40 Each

Finest USA heavyweight cowhide tab plate designed to take advantage of the string indexing qualities of target tabs, but shaped to eliminate face interference, for the higher anchors typically used by barebow archers. Top quality Shell Cordovan leather face... simply the best! Tight grained calf backing to maintain shape and enhance durability. Enlarged groove for nock clearance. Finger spacer and removable cord-lock attachment included. Please specify RIGHT or LEFT hand and SIZE Small, Medium, Large, or X-Large. Made in the USA.

232 TUFF TAB, 3 FINGER UNDER \$36 Each

Finest USA heavyweight cowhide tab plate designed to take advantage of the string indexing qualities of target tabs, but shaped to eliminate face interference, for the higher anchors typically used by barebow archers. Top quality Shell Cordovan leather face... simply the best! Tight grained calf backing to maintain shape and enhance durability. Absolute consistent stitch spacing and location... string walkers can be assured stitching will result in repeatable crawls every tab. Please specify RIGHT or LEFT hand and SIZE Small, Medium, Large, or X-Large. Made in the USA.

250 Split Finger Superleather Tab \$14 Each

251 Split Finger Calf Hair Tab \$15 Each

252 Three Finger Under Superleather Tab \$14 Each

253 Three Finger Under Calf Hair Tab \$15 Each

256 Split Finger Cordovan Tab \$26 Each

258 Three Finger Under Cordovan Tab \$26 Each

Black Widow tabs have been used around the world for over half a century and we continue to improve them. We offer them in conventional split-finger design with "fenders" between the fingers and the nock to prevent sores and calluses. You have a choice of #250 Superleather (best in wet weather), #251 Calf Hair (very slick but not as durable), and the deluxe #256 Cordovan (slick and durable; the best of both worlds). If you shoot three-fingers-under, we suggest the #252 Superleather, #253 Calf Hair or the #258 Cordovan tab which have a single "fender" between the top finger and the nock. Available in sizes X-Small (Split Finger Only), Small, Medium, Large or X-Large. Please specify SIZE and RIGHT or LEFT hand.

Bow Accessories

300 *Black Widow* FLEMISH-TWIST DynaFLIGHT 97 RECURVE OR LONGBOW STRING \$21 Each

You can't get a better string for your *Black Widow*. Made with small end-loops especially for *Black Widow* recurve and longbows (not suitable for recurve bows with wide limbs). Black and red barber pole with black and white BCY #62 center serving. *Spider* string silencers included. You should replace these strings after 10,000 shots or one year, whichever comes first. AMO: 54", 56", 58", 60", 62", 64", 66" and 68" (66" and 68" longbow only). Please specify RECURVE or LONGBOW and AMO limb LENGTH.

302 *Black Widow* DACRON RECURVE BOW STRING \$18 Each

Made with small end-loops especially for *Black Widow* recurve bows (not suitable for recurve bows with wide limbs). Available in black and brown barber pole flemish-twist with black and white BCY #62 center serving. *Spider* string silencers included. AMO: 54", 56", 58", 60", 62" and 64". Please specify AMO limb LENGTH and draw WEIGHT. Flemish-Twist.

305 CRICK-IT DRAW CHECK \$18 Each

This device can help you overcome "snap shooting" and more consistently achieve full draw.

306 BOW STRINGER \$15 Each

The safest way to string a recurve bow or longbow (for both the bow and the bowhunter). Designed for all recurves and longbows to minimize the risk of accidental damage during the stringing and unstringing process.

308 SPIDER STRING SILENCERS \$5 Set

The obvious choice for any *Black Widow* bow. You will love how easy they are to install. Because of their light weight, we furnish four to a set.

309 WOOLY WHISPERS STRING SILENCERS \$5 Pair

Real wool enriched with lanolin to repel moisture. These do a great job of silencing with the least amount of performance loss.

310 SPIDER LEG RUBBER STRING SILENCERS \$3 Pair

Excellent and economical silencing.

311 LIMB SAVERS \$15 Pair

Now available in small size for recurves and longbows. Reduces limb vibration and noise with minimum loss of performance.

312 BOW TIP PROTECTOR \$5 Each

Protects the lower limb tip from damage. Please specify RECURVE or LONGBOW.

313 STIKTAMERS \$16 Pair

Stiktamers deaden string slap and limb vibration at the shot. Also eliminating hand shock. More than just a string stop, they create a cradle for your hook when using a bow hanger. This protects the limb finish and abrasion to the string making it easy to remove your bow when it's time to take a shot. Stiktamers are also a brush protector, keeping sticks and brush from catching in the string crease. They are weather resistant and last shot after shot.

314 LONGBOW & RECURVE STRING KEEPER \$5 Each

Keeps string in place while bow is unstrung.

315 BRUSH BUTTONS \$2 Pair

Helps prevent snagging on brush and dampens string slap on recurve bow limbs.

316 BOW STRING WAX \$4 Each

Adds life to bow strings. Also useful to keep screw-in field points from coming loose and lubricating your PL and PSR take-downs.

317 NYLON STRING SERVING \$5 Each

100 yard spool of #4 black, twisted nylon.

318 STRING SERVER \$19 Each

Re-serve your own strings with this quality server. (String not included, color may vary.)

319 BCY #62 STRING SERVING \$16 Each

100 yard spool, black and white braided. This is the same serving that we use on our #300. Flemish-twist DynaFLIGHT 97 bow strings for long life and extra tight grip.

320 RECURVE SHELF REST AND STRIKE PLATE \$4 Package

Soft, quiet and impervious to moisture. Feather fletching necessary. Two sets per package.

321 SPIDER WEB SHELF REST/STRIKE PLATE \$6 Each

The perfect arrow "nest" for your *Widow!* This long lasting, black leather, one-piece shelf rest and strike plate is available in a large size for the PMA, PSA, PCH, KB, PA and PTF series and in a small size for the PSR series and PL series. Please specify RIGHT or LEFT hand and LARGE or SMALL.

322 CALF HAIR SHELF REST / STRIKE PLATE \$8 Each

This quiet, long lasting one-piece shelf rest and strike plate is the same one furnished with all new *Black Widow* bows. Available in large and small size (small size furnished on all models). Please specify RIGHT or LEFT hand and LARGE or SMALL.

323 BRUSH REST \$4 Each

Bristles support the shaft slightly above the shelf. If you like to shoot off-the-shelf but have trouble with arrow flight this may solve your problem.

330 BOW SQUARE \$10 Each

Swing-away gate allows easy access to nocking point. 5/16" diameter rod lays on rest in similar position as the arrow. Ideal for setting up to shoot off-the-shelf. Recommended for all shooters.

331 NOCKING PLIERS \$11 Each

Smooth precision fit. Easy removal of nock. Spring-loaded handle.

332 NOCKING POINTS \$2 for 1/2 Dozen

Bronze with rubber lining for positive grip. 6 per package.

340 ARROW KWIK-LOCK \$8 Each

Holds nocked arrow in place on arrow rest. Releases as arrow is drawn. Self-adhesive.

350 STEEL LIMB BOLTS AND HEX KEY \$3 Pair

Same as furnished with PMA, PSA and PCH series take-down models. It's wise to have a spare set. Please specify size LONG if to be used with #445 Selway, #462 Great Northern, or #474 Thunderhorn *Black Widow* quivers.

351 BRASS THUMB LIMB BOLTS \$9 Pair

For the PMA, PSA and PCH series take-down models. Eliminates the need for a special tool. Please specify size LONG if to be used with #445 Selway, #462 Great Northern or #474 Thunderhorn *Black Widow* quivers.

352 BRASS LIMB BOLTS AND HEX KEY \$9 Pair

If you hunt in very wet weather you might prefer these over the #350. They look classy too. Please specify size LONG if to be used with #445 Selway, #462 Great Northern or #474 Thunderhorn *Black Widow* quivers.

353 Black Widow ANTLER BURR LIMB BOLTS \$86 Pair

These genuine antler burrs with the engraved spider web will add a touch of class to your PMA, PSA or PCH take-down. Please specify size LONG if to be used with #445 Selway or #474 Thunderhorn *Black Widow* quivers. (Cannot use with #462 Great Northern.)

360 SHUR-GRIP \$7 Each

Rubber material provides excellent feel and traction even when wet, plus dampens the transfer of bow vibration. Can be rolled onto the bow and positioned without gluing. Just as easily, it can be removed without damage to the bow by rolling it off. This is the same *Shur-grip* that is furnished on our longbows. It can be installed on any longbow and most recurves.

361 POSI-GRIP \$14 Each

Textured rubber sleeve, bow grip. Covered in small dimples that creates hand traction for your bow. Made in USA. Color BLACK (not shown) or BROWN. Please specify color.

ACCESSORY WARRANTY

All accessories offered in this catalog have a one year limited warranty, either by their manufacturer or by *Black Widow Custom Bows*, for inferior materials or workmanship. At the discretion of *Black Widow Custom Bows*, or the manufacturer, the item will either be repaired or replaced without cost (other than shipping) to the customer. The above provisions will apply, unless the item shows evidence of misuse, abuse or alteration.

Travel Cases & Sleeves

401 TAKE-DOWN RECURVE BOW SOFT CASE \$41 Each

Padded camouflage case with individual limb sleeves provides maximum protection for your PMA, PSA, PCH or PSR take-down. The case zips shut and has an exterior accessory pocket with velcro flap. Embossed with *Black Widow* logo. Camo may vary.

400 ONE-PIECE RECURVE BOW SOFT CASE \$106 Each

Ideal to protect your one-piece recurve (or assembled take-down model) from your buddy's compound, or while hauling it in the back of a pick-up. The case will accept any recurve up to 64" AMO with quiver attached and filled with arrows in either the strung or unstrung position. Features fiberglass staves (removable when not in use) that protect the fletching of arrows in your bow quiver. Padded camouflage case with full-length zipper and exterior accessory pocket with velcro flap. Embossed with *Black Widow* logo. Camo may vary.

402 EXTRA LIMB SLEEVES \$10 Pair

This pair of individual limb sleeves lets you pack an extra set of limbs in the #401 take-down bow case. These also work well with case #415 or #423.

403 ONE-PIECE RECURVE BOW SOFT CASE \$45 Each

Beautiful padded fabric case is available in two lengths. The short version accepts unstrung bows up to 58" AMO and the long version up to 64" AMO. Easy access with full length zipper. Exterior accessory pocket with velcro flap. Embroidered with *Black Widow* logo. This is ideal for the hunter who prefers not to use a bow quiver or uses the #442 QDQ Quick-Draw Quiver. Please specify AMO bow LENGTH.

405 ONE-PIECE RECURVE BOW AND ARROW SOFT CASE \$75 Each With Saf-Pak \$102 Each

This versatile case accepts one-piece recurves (or assembled take-down models) with quiver attached (but without arrows) in either the strung or unstrung position. You may order it with or without the #430 Arrow Saf-Pak that fits snugly into the zippered pocket. Choice of gray or camo colors. Full length zipper for easy access. Embroidered with *Black Widow* logo. Available in two lengths. The short version accepts bows up to 58" AMO and the long version up to 64" AMO. Please specify WITH or WITHOUT Saf-Pac, AMO bow LENGTH and fabric COLOR. Camo may vary.

406 LONGBOW SOFT CASE \$47 Each

Padded fabric case accepts longbows up to 68" AMO with quiver attached (but without arrows) in either the strung or unstrung position. Full length zipper, exterior accessory pocket with velcro flap. Embroidered with *Black Widow* logo.

407 SAFARI TUFF TAKEDOWN RECURVE SOFT CASE \$59 Each

Soft and ultra-silent fabric, resists burrs. Water resistant. Padded fleece interior. Exterior pocket. Limb sleeve set included. *Black Widow* logo.

408 SAFARI TUFF TAKEDOWN LONGBOW SOFT CASE \$59 Each

Soft and ultra-silent fabric, resists burrs. Water resistant. Padded fleece interior with interior pocket. Limb sleeve set included. *Black Widow* logo.

409 LIMB SLEEVE SET \$15 Each

For the Safari Tuff Recurve or Longbow Takedown soft cases. Please specify RECURVE or LONGBOW.

410 CAMO LONGBOW SLEEVE CASE \$32 Each

Soft and ultra-silent fabric, resists burrs. Water resistant. For longbows up to 68".

411 CAMO TAKE-DOWN LONGBOW SLEEVE CASE \$38 Each

Similar to #410 but with additional half-sleeves to accept a two-piece take-down longbow. Full length sleeve accepts the bow assembled.

NEW

414 SAFARI TUFF TRANSFORMER SOFT CASE \$124 Each

With the ability to excel at being both a takedown case and strung bow case, it's perfect for the hardcore bow hunter, and provides absolute protection. Whether in the back of a pickup, on an ATV, strapped to a horse or thrown in the bottom of a boat, you can depend on your bow arriving ready for the hunt! Transformers from takedown case to strung bow case. Provisions for bow mounted quiver. Generous accessory pocket. Standard Cases are sized for strung 62" Recurves.

421 Black Widow TAKE-DOWN RECURVE BOW AND ARROW TRAVEL VAULT \$325 Each

At last, a gorilla proof case that even the airlines can not tear up! This 38 1/2" x 17 1/2" x 6 1/4" world famous Pelican Travel Vault is crushproof, dustproof, airtight, watertight (it even floats when loaded) and features an atmospheric pressure purge valve plus transport wheels. Precision cut foam accepts *Black Widow* take-down handle, two sets of limbs, bow quiver and 22 arrows with broadheads. 6 1/2" x 3 3/4" x 2" plastic accessory box included. (Furnish your own padlocks.) Three versions available, one designed for the PMA series, one for the PSA series (shown), and another for the PCH series. Please specify *Black Widow* bow MODEL. (Additional shipping required for International orders.)

••Bow and Arrows not included with case.••

422 PELILOCK PADLOCK \$17 Each or \$31 Pair

Pelican's new TSA-accepted padlock works two ways: A combination lock for the owner, and a separate TSA coded keyhole for access by TSA personnel. TSA can safely open and close the lock without damage. Lifetime guarantee.

423 TAKE-DOWN BOW AND ARROW HARD CASE \$179 Each

This 10 1/2" x 37" x 6 1/2" padded high-impact plastic case provides excellent protection for your take-down PSR, PL, PSA, PCH or PMA bow. Holds the bow securely on one side while storing 24 arrows with broadheads in the other side. The Codura camouflage cover has a zippered closure on each side.

424 ONE PIECE RECURVE HARDCASE \$151 Each

A foam-lined hard interior provides amazing protection while a soft-sided exterior won't scratch your vehicle. Two support brackets offer added protection. Dimensions: 60 1/4" L X 3 3/4" W X 8 1/4" H. Bow Storage: 59" L X 2 1/2" W X 6 1/4" H. Longbow version also available online.

430 ARROW SAFE-PAC \$27 Each

Safely protects up to 18 arrows with broadheads. Made of tough, smoke colored plastic. This 36" x 7" x 3" arrow case fits in the pocket of the #405 one-piece recurve bow soft case (see page 28).

442 ACE-IN-THE-HOLE QUIVER \$21 Each

Weight: ½ oz. Designed to be used in combination with a shoulder quiver or hip quiver and a two-blade broadhead. You can carry a single shaft at your finger tips for that quick shot without fumbling for one in your hip or shoulder quiver. If you don't take the shot, it is just as easy to put the "ace back in the hole". Can be used on most any recurve or longbow. Mounts with pressure-sensitive tape. Embossed *Black Widow* logo.

444 SELWAY *Black Widow* SIDE-MOUNT QUIVER \$125 Each

Weight: 8 oz. Two-piece traditional design with hand-stitched rawhide cup that utilizes 10-24 side-mount quiver inserts for mounting on all *Black Widow* recurve and longbows. The long distance between cup and gripper is especially good for longer arrows (Bow riser must have side-mount quiver inserts installed). Available in four or five arrow capacity. Please specify ARROW CAPACITY.

445 SELWAY *Black Widow* LIMB BOLT-MOUNT QUIVER \$135 Each

Weight: 9 oz. Two-piece traditional design with hand-stitched rawhide cup made specifically for *Black Widow* PMA, PSA and PCH take-down models. Mounts on limb bolts and does not need any other special inserts installed in bow handle. Furnished with extra long steel limb bolts for mounting. Available in four or five arrow capacity. Please specify ARROW CAPACITY and RIGHT or LEFT hand.

447 SELWAY LIMB-MOUNT QUIVER

Slide On \$110 Each
Quick Detach \$115 Each

Weight: 9 oz. Two-piece traditional design with hand-stitched rawhide cup that is available in choice of two designs. One design securely slides on limbs and the other is a quick-detach design with a screw-on rubber cap for easy-on, easy-off without unstringing bow. Each design available in a recurve or longbow version. Choice of four or five arrow capacity. Please specify SLIDE-ON or QUICK-DETACH, LONGBOW or RECURVE and ARROW CAPACITY.

449 SELWAY STRAP-ON QUIVER \$115 Each

Weight 8 oz. Two-piece traditional design with hand-stitched rawhide cup. Will fit either recurve or longbow. Available in 4 or 5 arrow capacity. Please specify ARROW CAPACITY.

450 PIGGY BACK ARROW GRIPPER \$4 Pair

Pack an extra Judo arrow (not recommended for broadhead) simply by clipping onto another arrow that is already in your bow quiver.

461 GREAT NORTHERN STANDARD STRAP-ON QUIVER \$99 Each

Weight: 8 oz. Fits *Black Widow* PTF, PSR (short recurve) or PL (longbow) series and most other brands of recurves and longbows. Easy on, easy off lightweight design holds five arrows. Choice of black or tan hand stitched leather cup. *Black Widow* logo. Also available with Gold Tip rubber arrow gripper. Please specify COLOR, RIGHT or LEFT hand and GOLD TIP (if desired).

462 GREAT NORTHERN *Black Widow* QUICK MOUNT

LIMB BOLT-MOUNT QUIVER \$115 Each

Weight: 8 oz. Mounts on limb bolts of *Black Widow* PMA, PSA and PCH series take-down recurve models. Thumbscrews make it ideal for the hunter who prefers to remove his quiver while on stand. Lightweight design holds five arrows. Choice of black or tan hand stitched leather cup. *Black Widow* logo. Also available with Gold Tip rubber arrow gripper. Longer bolts and mounting hardware included. Please specify COLOR, RIGHT or LEFT hand and GOLD TIP (if desired).

463 GREAT NORTHERN *Black Widow* SIDE-MOUNT QUIVER \$99 Each

Weight: 7 oz. Easy on, easy off lightweight design utilizes 10-24 side-mount quiver inserts for mounting on all *Black Widow* recurve and longbows (Bow riser must have side-mount quiver inserts installed). Holds five arrows. Choice of black or tan hand stitched leather cup. *Black Widow* logo. Also available with Gold Tip rubber arrow gripper. Please specify COLOR, RIGHT or LEFT hand and GOLD TIP (if desired).

499 ARROW GRIPPER BANDS \$4 Per Dozen

These rubber bands allow you to convert your arrow gripper for use with smaller diameter shafts.

499

464 QUIVER REPLACEMENT PARTS: Certain quiver parts tend to wear out and may need to be replaced. You may order the following items for the above bow quivers: Foam Cup Insert, Rubber Arrow Gripper (standard, Gold Tip or small carbon arrow) and Rubber Straps (for the Great Northern quivers). Please specify the above applicable CATALOG NUMBER, PART needed and ARROW CAPACITY.

FOAM CUP INSERT \$10 Each

THUNDERHORN RUBBER ARROW GRIPPER \$19 Each

Bow Mounted Quivers (continued)

473 THUNDERHORN Black Widow SIDE-MOUNT QUIVER \$125 Each

Weight: 9 oz. Two-piece design with hand-stitched contrasting leather hood. Utilizes 10-24 side-mount quiver inserts for mounting on all *Black Widow* recurves and longbows (Bow riser must have side-mount quiver inserts installed). *Black Widow* logo. Standard easily adjusts for up to six arrows. Small Frye holds four arrows. Please specify FOUR (Small Frye) or SIX (Standard) arrow, RIGHT or LEFT hand, and Tan and Brown or Black and Tan.

474 THUNDERHORN Black Widow LIMB BOLT-MOUNT QUIVER \$125 Each

Weight: 12 oz. Hand-stitched contrasting leather, two-piece design mounts on limb bolts and does not need any other special inserts installed in bow handle. Furnished with extra long limb bolts for mounting on *Black Widow* PMA, PSA or PCH series. *Black Widow* logo. Standard easily adjusts for up to six arrows. Small Frye holds four arrows. Please specify FOUR (Small Frye) or SIX (Standard) arrow, RIGHT or LEFT hand, and Tan and Brown or Black and Tan.

475 THUNDERHORN Black Widow BOA STRAP-ON QUIVER \$109 Each

Weight: 10 oz. The "constrictor" straps makes mounting the *Boa* quick and easy. Fits *Black Widow* PTF series, PSR (short recurve) series and PL (longbow) series and most other brands of recurves and longbows. *Black Widow* logo. Standard easily adjusts for up to six arrows. Small Frye holds four arrows. Please specify FOUR (Small Frye) or SIX (Standard) arrow, RIGHT or LEFT hand, and Tan and Brown or Black and Tan.

505 BLACK EAGLE VINTAGE CARBON ARROWS/SHAFTS

Size:	Grains per Inch
600	7.9 GPI
500	8.5 GPI
400	9.2 GPI
350	9.8 GPI

The Black Eagle Vintage® arrow is the first of its kind on the market. Many serious traditional archers are looking for a high quality wood grain carbon arrow – so Black Eagle delivered. The Duracoat wood grain overlay-finish allows for refletching and cresting. Vintage arrows are straightness sorted to .005" or better, spine matched, and weight matched to ensure the quality and toughness that you have come to expect. Offered full length (34.25") or cut to length. **R.P.S. inserts and nocks** included. The length is measured from the bottom of the nock groove to the end of the shaft. Please specify **SIZE** and **LENGTH** (if desired).

RAW SHAFTS (dozen) **\$80 Uncut** OR **\$90 Cut to Length**
FEATHER FLETCHING (dozen) **\$120 Uncut** OR **\$130 Cut to Length**
TRAD VANE FLETCHING (dozen) **\$120 Uncut** OR **\$130 Cut to Length**

513 GOLD TIP WRENCH \$10 Each

The Gold Tip Weight System Adjustment Wrench allows you to add weight to the front of your Gold Tip or Carbon Express RPS insert after it is glued in. Simply pull the nock out and use the weight wrench to add or subtract weight.

511 GOLD TIP ADAPTER WEIGHTS

COMBO PACK \$50 Six Dozen 20 GRAIN \$10 Dozen 50 GRAIN \$10 Dozen

This system makes it possible to not only add weight to the shaft, but also to change the dynamic spine of the shaft to fine tune it for perfect arrow flight (see GRAPHITE SHAFTING below). Adding weight only to the point end of a *Gold Tip*, *Carbon Express* (except 75's and 90's), or *Black Eagle* causes the shaft to have a weaker "dynamic" spine because the arrow is "pushing" more weight. Combo Pack comes with 3 dozen 20 grain weights and 3 dozen 50 grain weights which is enough to add up to 210 grains per arrow to one dozen arrows. Also available in 1 dozen 20 grain and 1 dozen 50 grain. Please specify COMBO PACK, 20 GRAIN or 50 GRAIN.

512 GOLD TIP FULL-THREAD R.P.S. INSERT

15 GRAINS \$11 Dozen 100 GRAINS \$16 Dozen

15 grains or 100 grains. Fully threaded which allows you to use the #511 Adapter Weights to add weight to the shaft. (see GRAPHITE SHAFTING below). Please specify weight.

516 CARBON EXPRESS HERITAGE FULLY THREADED

R.P.S. INSERTS for 150, 250, 350 \$8 Dozen

13 grains. For the Carbon Express 150, 250 and 350 shafts. Fully threaded, allowing you to add the #511 adapter weights to the shaft (see GRAPHITE SHAFTING BELOW).

517 CARBON EXPRESS HERITAGE FULLY THREADED

R.P.S. INSERTS for 75, 90 \$8 Dozen

11 grains. For the Carbon Express 75 and 90 shafts. #511 Gold Tip Adapter Weights **WILL NOT FIT** in the 75 or 90 shafts.

518 BLACK EAGLE FULLY THREADED

R.P.S. INSERTS for 600, 500, 400, & 350 Shafts \$12 Dozen

14 grains. For Black Eagle Vintage Carbon Arrows / Shafts (#505).

Standard Feathers:
2 Barred White, 1 Barred Orange
RW 5" Shield Cut

508 Feather Fletching

508 Raw Shaft

508 EASTON CAMO HUNTER XX75 ARROWS/SHAFTS

This camo looks great in the woods. The 1816 & 1916 come packaged with green X Uni-Nocks and X Uni-Bushing System. Sizes 2016, 2114, 2018, 2115, 2213, 2215, 2117, 2216, 2315, 2219, and 2317 come packaged with green Super Uni-Nocks and the Uni-Bushing System. Offered full length or cut to length. **R.P.S. inserts** included. Sorry no substitutions on nock color (for additional colors see #535 and #536). Please specify **SIZE** and **LENGTH** (if desired).

RAW SHAFTS (dozen) **\$67 Uncut** OR **\$77 Cut to Length**
FEATHER FLETCHING (dozen) **\$116 Uncut** OR **\$126 Cut to Length**

Standard Feathers:
2 Barred White, 1 Barred Orange
RW 5" Shield Cut

509 Feather Fletching

509 Raw Shaft

509 LEGACY XX75 SHAFTS ALUMINUM SHAFTING

Tan color with lifelike, cedar grain pattern and "footed" point end gives this shaft the traditional look of wood but with the precision of aluminum. Sizes: 1916, 2016, 2018, 2117, 2216 and 2219. Offered full length or cut to length. **R.P.S. inserts** included. White or Red Marco Nocks. Please specify **SIZE**, **NOCK COLOR**, and **LENGTH** (if desired).

RAW SHAFTS (dozen) **\$80 Uncut** OR **\$90 Cut to Length**
FEATHER FLETCHING (dozen) **\$130 Uncut** OR **\$140 Cut to Length**

GRAPHITE SHAFTING: People question if graphite arrows are traditional. "Tradition" is in the mind of the traditionalist. What we do feel strongly about is adequate mass weight of an arrow to absorb more of the bow's stored energy for penetration and the longevity of the bow. Even Congress cannot repeal the "Law of Inertia" which, to a bowhunter, means penetration. Therefore, we recommend an arrow weight of 9 to 12 grains per pound of draw weight. Our warranty requires a minimum of 8, but long draw lengths (29+ inches) significantly increase the possibility of limb tip damage when using a high performance bowstring and lighter arrows, therefore 9 to 12 would be safer and wiser. We prefer Gold Tip, Carbon Express, or Black Eagle graphite shafts because of their unique system of adding weight to the point end of the shafts. **Gold Tip Adapter Weights WILL NOT FIT in the 75 and 90 Carbon Express shafts.** This system also makes it possible to fine-tune the shaft for perfect arrow flight. The greatest advantage of the virtually indestructible graphite shaft is that it allows you to maximize your accuracy (especially in cold weather) by shooting moderate poundage and should you not get a pass-thru (which may even be preferable), the graphite shaft is unlikely to break and continues to work as the game flees.

ALUMINUM SHAFTING: Unfortunately, as you can see above, Easton Aluminum does not make every arrow size in each arrow color. Consequently the color design you prefer may not be available in the size you need. We apologize for this, but trust you understand that this is beyond our control.

Arrow Making Supplies

520 BARRED FEATHERS Dozen \$14

Artificial, but look like the real thing. Available in right wing or left wing, 5", traditional shield cut. Colors: White, red, orange, green, brown, yellow, and chartreuse. Please specify RIGHT or LEFT wing and COLOR.

521 SOLID COLORED FEATHERS Dozen \$9

Available in right wing or left wing, 5", traditional shield cut. Colors: White, red, orange, yellow, green, brown, black, gray, pink, chartreuse, and blue. Please specify RIGHT or LEFT wing and COLOR.

522 SPIRAL WRAP FLU-FLU SOLID COLORED FEATHERS \$5 Dozen

Specially prepared full length feathers for a spiral wrap flu-flu arrow. Colors: CHARTREUSE, RED, and WHITE. Right Wing Only. Specify COLOR.

523 TRAD VANES \$6 Dozen

AAE teamed up with accomplished outdoorsman and Traditional archer Aron Snyder to create the first ever Traditional archery vane that can be shot off the shelf while maintaining the same flight characteristics and impact point they are accustomed to with feathers. The new AAE TRAD vane allows Traditional archers the confidence to shoot a vane in wet or inclement weather. Colors: White, Red, Yellow, and Blue. Sold in Dozen Packs.

526 BOHNING FEATHER-DRI POWDER \$10 Each

Weatherproof your fletching with this easy-to-use weightless and odorless powder. Feathers retain natural look and feel. Treats about 100-150 arrows.

529 CARBON EXPRESS PRESS FIT NOCKS For 75 & 90 Shafts \$7 Dozen

Offered in solid green, white and yellow for Carbon Express 75 & 90 shafts (see #534 for 150, 250, & 350). Please specify COLOR.

530 NOCK TOOL \$1 Each

To align #533 Bohning, #534 Carbon Express and #536 Super Uni-Nocks.

531 GOLD TIP SNAP-ON NOCKS \$11 Dozen

Gold Tip GT Series push-in nocks are manufactured from the finest materials and with a focus on precision to ensure the tack driving accuracy of your Gold Tip carbon shafts. Weigh approx. 11.5 grains each. Please specify WHITE, RED, or ORANGE.

532 MARCO NOCKS \$3 Dozen

Snap-on nocks that are strong enough for a *Widow*. Sizes: 9/32", 1/4", 5/16" and 11/32". Colors: White, red, orange, fl. orange, yellow, green, fl. green and black. Please specify SIZE and COLOR.

533 BOHNING SIGNATURE PRESS FIT NOCKS \$6 Dozen

Indexed snap-on nock with no-glue feature that fits Gold Tip shafts. Colors: White, rose, fl. orange, fl. green and black. Please specify COLOR.

534 CARBON EXPRESS PRESS FIT NOCKS For 150, 250 & 350 Shafts \$7 Dozen

Offered in green, orange and pearl for Carbon Express 150, 250 and 350 shafts (see #529 for 75 & 90). Please specify COLOR.

535 "X" UNI-NOCK FOR CAMO HUNTER SHAFTS Size 1816 or 1916 \$8 Dozen

Offered in black, green, orange, white and fluorescent yellow. Specify COLOR.

536 SUPER UNI-NOCK for CAMO HUNTER SHAFTS \$8 Dozen

Sizes 2016, 2114, 2018, 2115, 2213, 2215, 2117, 2216, 2315, 2219, 2317 and 2419. Also fits GOLD TIPS. Offered in black, green, orange, white and yellow. Please specify COLOR.

537 UNI-BUSHING SYSTEM FOR "X" UNI-NOCKS AND SUPER UNI-NOCKS \$8 Dozen

For Camo Hunter Shafts. "X" Uni-Bushings for 1816 and 1916's, Super Uni-Bushing for sizes 2016, 2114, 2018, 2115, 2213, 2215, 2117, 2216, 2315, 2219, 2317 and 2419. Please specify SIZE.

557 WEIGHT WASHERS \$4 Dozen

Add up to three 5 grain brass washers behind screw-in field points and most broadheads to achieve proper arrow flight. Sizes: 5/16" or 11/32". Please specify SIZE.

569 R.P.S. INSERTS \$8 Dozen

Replaceable Point System inserts are furnished with all standard orders of aluminum shafting (you may wish to have some extra ones). See # 504 and #506 for sizes. Please specify SIZE.

624 Black Widow SPIDER "INSTANT CREST" ARROW WRAPS \$8 Dozen

2 3/8" long. If you don't have the time, talent or patience to crest your arrows this is the quick and easy way to do it. Not only will it dress up your arrows but if you are an instinctive shooter they will also make it easier to follow them in flight.

625 Black Widow "INSTANT CREST" ARROW WRAPS \$12 Dozen

7" long. Dress up those arrows and fletch right over them. Available in white and red with *Black Widow* Logo. Please specify COLOR.

626 Black Widow "INSTANT CREST" ARROW WRAPS with Laminate Applied \$17 Dozen

9" long. Traditional wraps add that special look to your arrows. We suggest the #627 *Clear Laminate Wrap* to protect your Instant Crest. Available in BLACK, WHITE and BLUE with *Black Widow* Logo. Please specify COLOR.

627 CLEAR LAMINATE WRAPS \$5 Dozen

To protect your wrap print and details. Will not smear or fade. Suggested for #625 and #626 wraps. Comes in 7" and 9". Please specify SIZE. -not pictured-

538 DIGITAL ARCHERS GRAIN SCALE \$19 Each
Very accurate and affordable electronic grain scale. Maximum capacity 1543 grains. Weighs in grains, ounces and grams. Batteries included.

539 DIGITAL ARROW-2000 SCALE \$24 Each

The Superior Balance Arrow-2000 has everything you need to accurately weigh your arrows. Maximum capacity of 2,000 grains with accuracy of 3.0865 grains. Features Backlit LCD display, tare function, and auto calibration. Includes instructions, batteries, an arrow holder, and a 100 gram (1,543.2 grains) calibration weight.

543 CUT-OFF TOOL \$19 Each

A high quality tool that allows you to cut your own aluminum or Gold Tip tuning shafts (if done cautiously) to fine-tune your bow through arrow length to achieve proper spine, as per our Owner's Manual DVD. (A high speed cut-off tool should be used for volume cutting.)

545 BPE PRO FLETCHER \$52 Each

The adjustable nock receiver allows you to position feathers properly to shoot off-the-shelf, as per our Owner's Manual DVD. The degree of helical can also be adjusted. Please specify RIGHT or LEFT wing.

546 BPE HELICAL CLAMP \$12 Each

An additional clamp gives you the option of using your BPE Pro Fletcher for either right or left wing feathers. Please specify RIGHT or LEFT wing.

547 BITZENBERGER DIAL-O-FLETCH \$95 Each

Still considered the finest fletcher available. We furnish it with a helical clamp and with the TM nock receiver that positions feathers to shoot off-the-shelf. Please specify RIGHT or LEFT wing.

548 BITZENBERGER HELICAL CLAMP \$32 Each
TM NOCK RECEIVER \$15 Each

An additional clamp and TM nock receiver gives you the option of using your Bitzenberger Dial-O-Fletcher for either right or left wing feathers. Please specify RIGHT or LEFT wing.

549 DUCO CEMENT \$5 Each

For fletching and gluing nocks when used with *Little Dipper* stains and sealers (rather than *Fletch-Tite*). Do not use to glue directly to aluminum or graphite shafts.

550 HOT MELT GLUE \$3 Each

Ideal for gluing inserts, adapters or traditional field points and broadheads.

551 BOHNING PLATINUM FLETCH-TITE CEMENT \$5 Each

For fletching and for gluing nocks. (Use *Fletch-Tite* with Bohning stains and sealers.)

553 SUPER SPIDER GOO - THICK \$15 Each

½ oz. bottle. Instant adhesive that is ideal for gluing metal to metal such as broadheads to adapters or swaged arrows. Also great for permanently gluing inserts and weights in Gold Tip shafts.

554 ALCOHOL BURNER \$8 Each

The perfect unit for using Hot Melt. (See your local pharmacy or hardware to get denatured alcohol.)

555 BARGE CEMENT \$8 Each

All purpose cement. Ideal for adhering arrow rest to bow without damaging finish.

556 MAX BOND GLUE \$15 Each

Fletching Glue for the Trad Vanes.

600 PROCHRONO DIGITAL CHRONOGRAPH \$145 Each

Compact, portable and affordable. Enables you to test and compare to achieve the best setup for your bow. Memory feature records high velocity, low velocity, average velocity, etc. May be mounted on a standard camera tripod. Powered by 9 volt battery (not included) for outdoor use. (See #601 for indoor use.)

601 INDOOR CHRONOGRAPH LIGHT KIT \$70 Each
Converts #600 chronograph for indoor use.

603 T-BIRD MODULAR ARROW CUT-OFF SAW \$145 Each

Modular design allows the saw to be broken down into pieces and stored in its own compact box. Capable of cutting any length arrows. Complete with spin testers and de-burring tool.

605 DE-BURRING TOOL \$17 Each

Hand held to de-burr aluminum shafting that has been cut to length.

ACCESSORY WARRANTY

All accessories offered in this catalog have a one year limited warranty, either by their manufacturer or by *Black Widow Custom Bows*, for inferior materials or workmanship. At the discretion of *Black Widow Custom Bows*, or the manufacturer, the item will either be repaired or replaced without cost (other than shipping) to the customer. The above provisions will apply, unless the item shows evidence of misuse, abuse or alteration.

BROADHEADS

We are often asked what kind of broadhead should be used with a traditional recurve or longbow. The obvious answer is ... a very sharp one that is well placed! Since accuracy is a vital part of this formula, it is extremely important not to be overbowed. When shot from a bow of reasonable poundage, we believe a cut-on-impact two or three blade traditional-type broadhead has the greatest probability of total pass-thru penetration, thus leaving a good blood trail that is easy to follow. For those of you who need broadhead adapters so you can mount traditional broadheads onto aluminum or graphite shafting, we offer the #566 screw-in adapter or the #568 glue-in adapter. This choice of weight added to the broadhead can help you match field point weights and achieve proper arrow flight, as discussed in the Owners Manual.

571 VPA 2-BLADE BROADHEADS

CNC Machined from high carbon steel – heat treated to 55 Rockwell. Ferrules are faceted to match sharpening angle and makes them quite the little bone splitters. Ferrule supports the head all the way to the double tanto style tip to help prevent tip curling. 1 1/8" width. **Screw-In.** Please specify WEIGHT.

125 gr., 150 gr., 175 gr., 200 gr., **\$48 (3 pack)**

571 VPA 3-BLADE BROADHEADS

Rock solid and machined with precision to give you perfect flight every time. No weld lines or brazing combined with the pyramid style chiseled points for "bone-splitting" strength. 1 1/8" cutting dia. Three-Blade. **Screw-In.** Please specify WEIGHT.

125 grains, 150 grains **\$42 (3 pack)**
175 grains, 200 grains **\$46 (3 pack)**

572 GRIZZLY TRADITIONAL BROADHEADS

Designed for deep penetration. The combination of the long, lean shape of the Grizzly, and the 25 degree single bevel, aids in busting heavy bone. This is accomplished through the twisting action the single bevel produces as it passes through tissue. **Right Bevel Only.** 11/32" ferrule, Two Blade. Please specify WEIGHT.

SCREW-IN

150, 175, or 200 grains
1 1/8" W, 2 3/4" L **\$31 (3 pack)**

573 GRIZZLY INSTINCT 3 BLADE

Made of multiple layers of copper brazed 1075 carbon steel with an incredibly strong triple-laminated core. Solid steel reinforced tip to eliminate tip curl. Heat treated to 50 rockwell and Teflon coated. Long and lean design aids penetration. Mounts on wood shafts as large as 23/64" or use 11/32" screw in adapters to mount to carbon and aluminium shafts. 1 1/8" cutting diameter. Please specify grain weight.

175 or 200 grains, Glue-On **\$31.00 (3 pack)**

200 or 225 grains, Screw-In **\$37.00 (3 pack)**

576-1 WOODSMAN BROADHEADS

Long and lean for good penetration. Teflon coated. 11/32" ferrule, 1 1/8" dia. Three-Blade.

125 grains, Glue-On **\$44 (6 pack)**

125 grains, Screw-In **\$29 (3 pack)**
150 grains, Screw-In **\$49 (6 pack)**

576-2 WOODSMAN ELITE BROADHEADS \$59 (3 pack)

Machined from a solid piece of tool-grade steel. The only 3-blade broadhead on the market that can claim that! The most deadly broadhead just got Deadlier! The 125 & 150 grain models feature a cutting diameter of 1", while the 175 grain models have a 1 1/8" cutting diameter and are non-vented. 11/32" ferrule. Three-Blade **Screw-In.** Please specify WEIGHT.

175 grains, 200 grains, 1 1/8" dia.
125, 150 grains, 1" Vented

577 ZWICKEY BROADHEADS

Two-blade. Please specify number of GLUE-ON or SCREW-IN and WEIGHT.

GLUE-ON

Eskilite 1 1/16", 5/16" ferrule, 110 grains **\$16 (3 pack)**
Eskimo 1 1/4", 11/32" ferrule, 125 grains **\$16 (3 pack)**
Delta 1 1/2", 11/32" ferrule, 135 grains **\$18 (3 pack)**

SCREW-IN

Eskilite 1 1/16", 5/16" ferrule, 135 grains **\$18 (3 pack)**
Eskimo 1 1/4", 11/32" ferrule, 160 grains **\$18 (3 pack)**
Delta 1 1/2", 11/32" ferrule, 170 grains **\$22 (3 pack)**

579 ZWICKEY "NO MERCY"

11/32" ferrule, 1 1/16" dia. Two-Blade. Destined to become a quiver favorite. Available in **Right Single, Left Single and Double Bevel.** Please specify BEVEL and WEIGHT.

130 grains, Glue-On **\$19 (3 pack)**

165 grains, Screw-In **\$22 (3 pack)**

580 ACE GLUE ON BROADHEADS

The famous ACE STANDARD broadhead was designed in the 30's and now almost 80 years later remains unequalled in flight characteristics and penetration qualities. The Standard includes high carbon steel, is spot welded, copper brazed and heat treated with a triple laminated tip. Combined with the ACE Interlocking Ferrule, these characteristics create a nearly indestructible head of the highest quality. These heads combine excellent flight characteristics, great penetration, and unequalled toughness.

125, 135, 145, or 160 grains **\$34 (6 pack)**

586 STINGER BROADHEADS

Made by Magnus. Razor-sharp rust-proof stainless steel main blade which is easily resharpened but is also replaceable in case of extreme damage. 1 1/16" dia. **Screw-In.** Specify BLADES and WEIGHT.

Two-Blade 100 or 125 grains (shown) **\$34 (3 pack)**
Four-Blade 125 (shown) or 150 grains **\$38 (3 pack)**

587 STINGER MAIN BLADES \$12 (3 pack)

Spare main blades for #586 Stinger 100 and 125. Please specify 100 or 125 grains.

598 G5 MONTEC BROADHEADS \$41 (3 pack)

Solid "Head to Thread" one-piece construction made possible by new patented MonoFlow technology. Stainless steel. 1 1/8" Three-Blade **Screw-In, 125 grains.**

Sharpening & Hunting Accessories

REFINISHING

*Let Us Make
Your Old Bow
Look New Again!*

We can refinish your 1 piece or complete takedown bow for only \$200 or your set of Limbs or Handle Only for \$100 plus shipping. We can sometimes take 3 to 5 pounds of weight off as well. Cost is \$25 plus the refinish charge. Shipping will run \$30 for USA Customers. International shipping will apply to overseas orders. Please do not send your string, bolts, or other accessories. Call for more details.

Before

After

705 BROADHEAD FILE \$11 Each

For those who prefer to sharpen broadheads the way Fred Bear did. This quality file with wooden handle will do the job.

706 SPORTSMEN STICK \$27 Each

Now anyone can put a sharp edge on any broadhead or knife. The V-shaped, premium grade "micrograin" carbides have a micro-adjustment feature for extended life.

707 PRUNING PLIERS \$11 Each

Quickly and quietly trim out your tree stand with this high quality cutter. Unique ratchet design provides leverage to easily cut up to 3/4" limbs or saplings. Color may vary.

710 Bow Hanger \$2 Each

Screws into tree or branch. Rubber coated hook keeps bow handy while on stand. Sold as singles.

711 SECOND CHANCE ARROW HOLDER \$8 (3-pack)

Screw into your tree and keep another arrow handy for that quick, second shot.

712 BOW HOIST \$4 Each

This 20 foot camo-colored nylon rope with pinch snap provides an easy and safe way to lift your hunting equipment into a tree stand. Also can be used as a deer drag.

714 BUCKS ARROW GRABBER \$14 Each

The arrow grabber supports your broadhead while sharpening and allows you to hold your arrow securely and safely. It will prevent the arrow from twisting in your hand and help in maintaining a consistent filing angle.

715 WIND-CHECK AIR CURRENT FINDER \$6 Each

Rotate bottle upside-down and squeeze. Odorless powder tells you wind direction when nothing else will.

717 Tree Seat \$75 Each

Designed for the Bowhunter who wants to hunt off of the ground. Screws into a tree or post. Folds easily to go in your backpack.

721 TREE HOPPER SAFETY BELT \$56 Each

The 1/2" black, hollow braid, polypropylene "chinese handcuff" adjustable cord, makes this the handiest safety/climbing belt and deer drag we've ever used. The two ply military style nylon belt webbing is double reinforced at the "D" rings. The spring loaded safety latch prevents accidental detachment. Available in medium (24"-34" waist), large (34"-44" waist) and x-large (44"-54" waist). Please specify SIZE.

725 JONES FACE CAMO \$7 Each

Easy to apply, non-irritating "hunting face" that won't crack, peel or sweat off, but easily removed with just soap and water. 3 pack.

727 GUT-N-GLOVES \$2 Pair

The easy way to keep your hands and sleeves totally clean when field dressing big game. Everyone needs a ziplocked pair in their pack.

800 Black Widow LOW CROWN CAP \$17 Each

Embroidered logo. Adjustable size. Please specify BLACK, CAMO, or our new color DIGITAL CAMO.

802 Black Widow HOODED SWEATSHIRT \$27 Each

Sizes XXL, XXXL \$30 Each

Gray, 50% cotton and 50% Polyester. Small logo on chest and large logo on back. Available in gray or black and sizes small, medium, large, x-large, xx-large or xxx-large. Please specify COLOR and SIZE.

803 Olive Green & Navy Frost

803 Black Widow T-SHIRT

Short Sleeved (GRAY, BLACK) \$19 Each

Short Sleeved (NAVY FROST, OLIVE GREEN) \$19 Each

Long Sleeved (GRAY or BLACK) \$23 Each

Kids Short Sleeved (GRAY only) \$11 Each

98% cotton. Small logo on chest and large logo on back. Choice of short sleeved or long sleeved; or kids short sleeved. Available in sizes small, medium, large, X-large or XX-large. Kids Short Sleeved (gray only) available in kid sizes small, medium or large. Please specify SHORT sleeved, LONG sleeved or KIDS short sleeved, SIZE and COLOR (as listed below).

Short Sleeve:

GRAY, BLACK, NAVY FROST, OLIVE GREEN

Long Sleeve:

GRAY or BLACK.

806 Black Widow COFFEE CUP \$6 Each

There is nothing better than a good cup of coffee in the morning before you pick up your *Black Widow* bow to go hunting... unless you drink it from a *Black Widow* cup.

8062 Black Widow PLASTIC COFFEE CUP \$6 Each

There is nothing better than a good cup of coffee in the morning before you pick up your *Black Widow* bow to go hunting... unless you drink it from a *Black Widow* cup. Now available in plastic. Great for camping.

821 Black Widow LOGO \$1 Each

Black on white, 3 5/8" diameter.

822 Black Widow SPIDER DECAL \$1 Each

Black spider on red, 1 3/8" X 2" oval. Works great on second owner *Black Widow* bows to cover up the name of the first owner.

824 Black Widow CLOTH PATCH \$5 Each

Black on white, 2 3/4" diameter.

825 BOWFIT EXERCISER \$25 Each
